

A DEAD END.

In the days ahead, tens of thousands of Americans receiving rehabilitation therapy may reach a dead end in their recovery efforts. Their progress from stroke, accident or injury will be halted when outdated and arbitrary spending limits are imposed on their rehabilitation treatment by the federal government. Vital, restorative therapy services will come to a sudden stop.

IT DOESN'T HAVE TO HAPPEN.

**Please Congress – protect your constituents who need your help the most.
Pass legislation to extend the therapy caps exceptions process.**
